ABOUT ME

As a dedicated software engineer, I continually seek opportunities to expand my skills and knowledge. My expertise spans web development, graphic design, and data analysis, with a strong foundation in React.js, Next.js, JavaScript, CSS, HTML, TypeScript, Tailwind, WordPress, SQL, Excel and the Adobe Suite.

I offer a diverse skill set complemented by effective communication and a strong work ethic, poised to deliver substantial contributions and excel in any professional environment.

EXPERIENCE

FRANCATECH

IT Company
Banja Luka, B&H
Apr 2015 - Present

Web Developer • Self-Employed

I continuously enhance user engagement and website performance through the implementation of modern web design principles and advanced programming techniques. In the past year, I've cut site load times by 40%, raised user retention by 25%, and boosted conversion rates by 15%.

RTRS

TV Station
Banja Luka, B&H
Jul 2015 - Feb 2025

Broadcast systems Engineer • Full Time

As a Broadcast Systems Engineer, I enhanced audio-video production and broadcast quality by operating specialized equipment and managing satellite transmissions. I reduced technical faults by 30%, improved signal reliability by 20%, and ensured 99% uptime for DSNG vehicle operations.

49ING

IT Company
Zürich, Switzerland
Aug 2021 - Apr 2023

Data Analyst • Contract

Gathered and organized data, analyzed it, and generated reports and dashboards. I improved data accuracy by 35%, increased report generation efficiency by 50%, and collaborated with key stakeholders to drive data-driven decisions, enhancing operational efficiency by 20%.

GRANT THORNTON

Accounting company
Banja Luka, B&H
Feb 2021 - Mar 2023

IT Administrator • Contract

Supervised the organization's technology infrastructure, managing daily IT operations and leading IT projects. I increased system uptime to 99.9%, improved data security compliance by 40%, and completed 95% of IT projects on schedule.

EDUCATION

APEIRON

Pan-European
University Apeiron
Banja Luka, B&H
Jan 2018 - Jan 2022

Computer Science • Bachelor's Degree

A 4-year program (240 ECTS) in computer technologies, focusing on programming, data science, and algorithms. Emphasizes practical skills with a 95% employment rate and 90% proficiency in advanced programming.
